WELCOME TO VF HOME DECOR

At VF, we offer all you might need for a private property as well as businesses such as hotels, restaurants etc. This means that whether you are a person who is looking to furnish his/her private property, or an architect or designer looking to furnish your current projects, we can assist you.

WHY VF HOME DECOR?

We offer a vast array of products such as tiles, to internal doors, mirrors, bathrooms, living rooms, bedrooms and so on. Once a prospective client, be it a private client or a designer or architect, shows interest in engaging our services, our journey together begins. The first thing we do is meet up at the property the client would like to furnish in order to get an idea of his/her needs.

Once we have a clear indication of the clients' needs, we move on to the next step which is showing them what brands we offer that cater for their needs. Since the furniture comes from Italy, one has the option to pick the items needed either through websites or by visiting us in Italy. This depends solely on the client and is by no means a must.

We also assist our private individual clients by giving interior design ideas and help them organise their ideas into a concrete project. The process is indeed quite a simple one, however, we ascertain that the client is guided throughout the whole process no matter how big or small their project is. We currently work in Malta, the UK, Tunisia as well as Portugal and plan to expand further. However, our clients can get in touch with us at any time for guidance or assistance. Once the order is done, VF will handle all the transportation as well as the delivery and installation in the client's property.

MODERN BATHROOMS CREATE A SIMPLISTIC AND CLEAN FEELING.

In order to design your modern bathroom make sure to utilise geometric shapes and patterns, clean lines, minimal colours and midcentury furniture. These modern details transform dull bathrooms into fantastic relaxation and refreshing spaces.

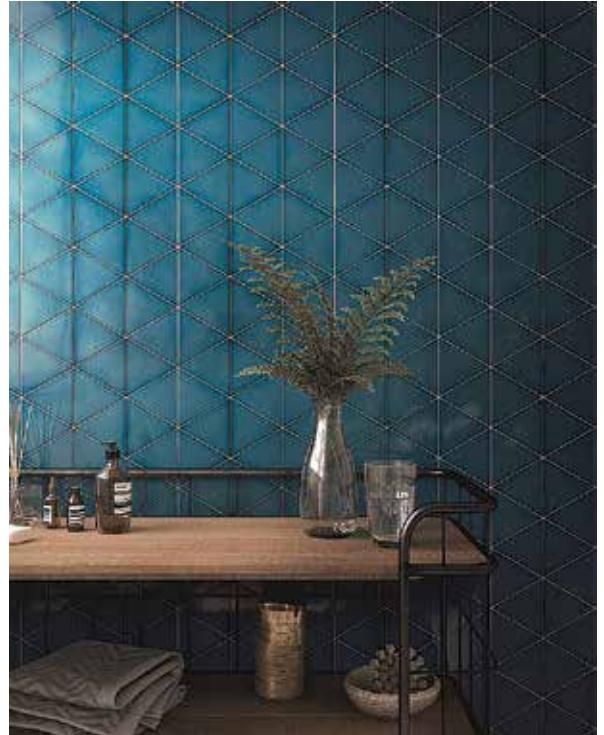

Modern-style bathrooms typically feature geometric shapes, simple colour schemes, and a minimal number of decorative flourishes.

GLAM MARBLE BATHROOM. MARBLE CAN ALSO BE USED IN MORE QUIRKY DESIGNS.

The large wall marble tile and curved marble floor tile open up the space and give it a luxurious background, which perfectly matches the gold and mirrored furniture and accessories.

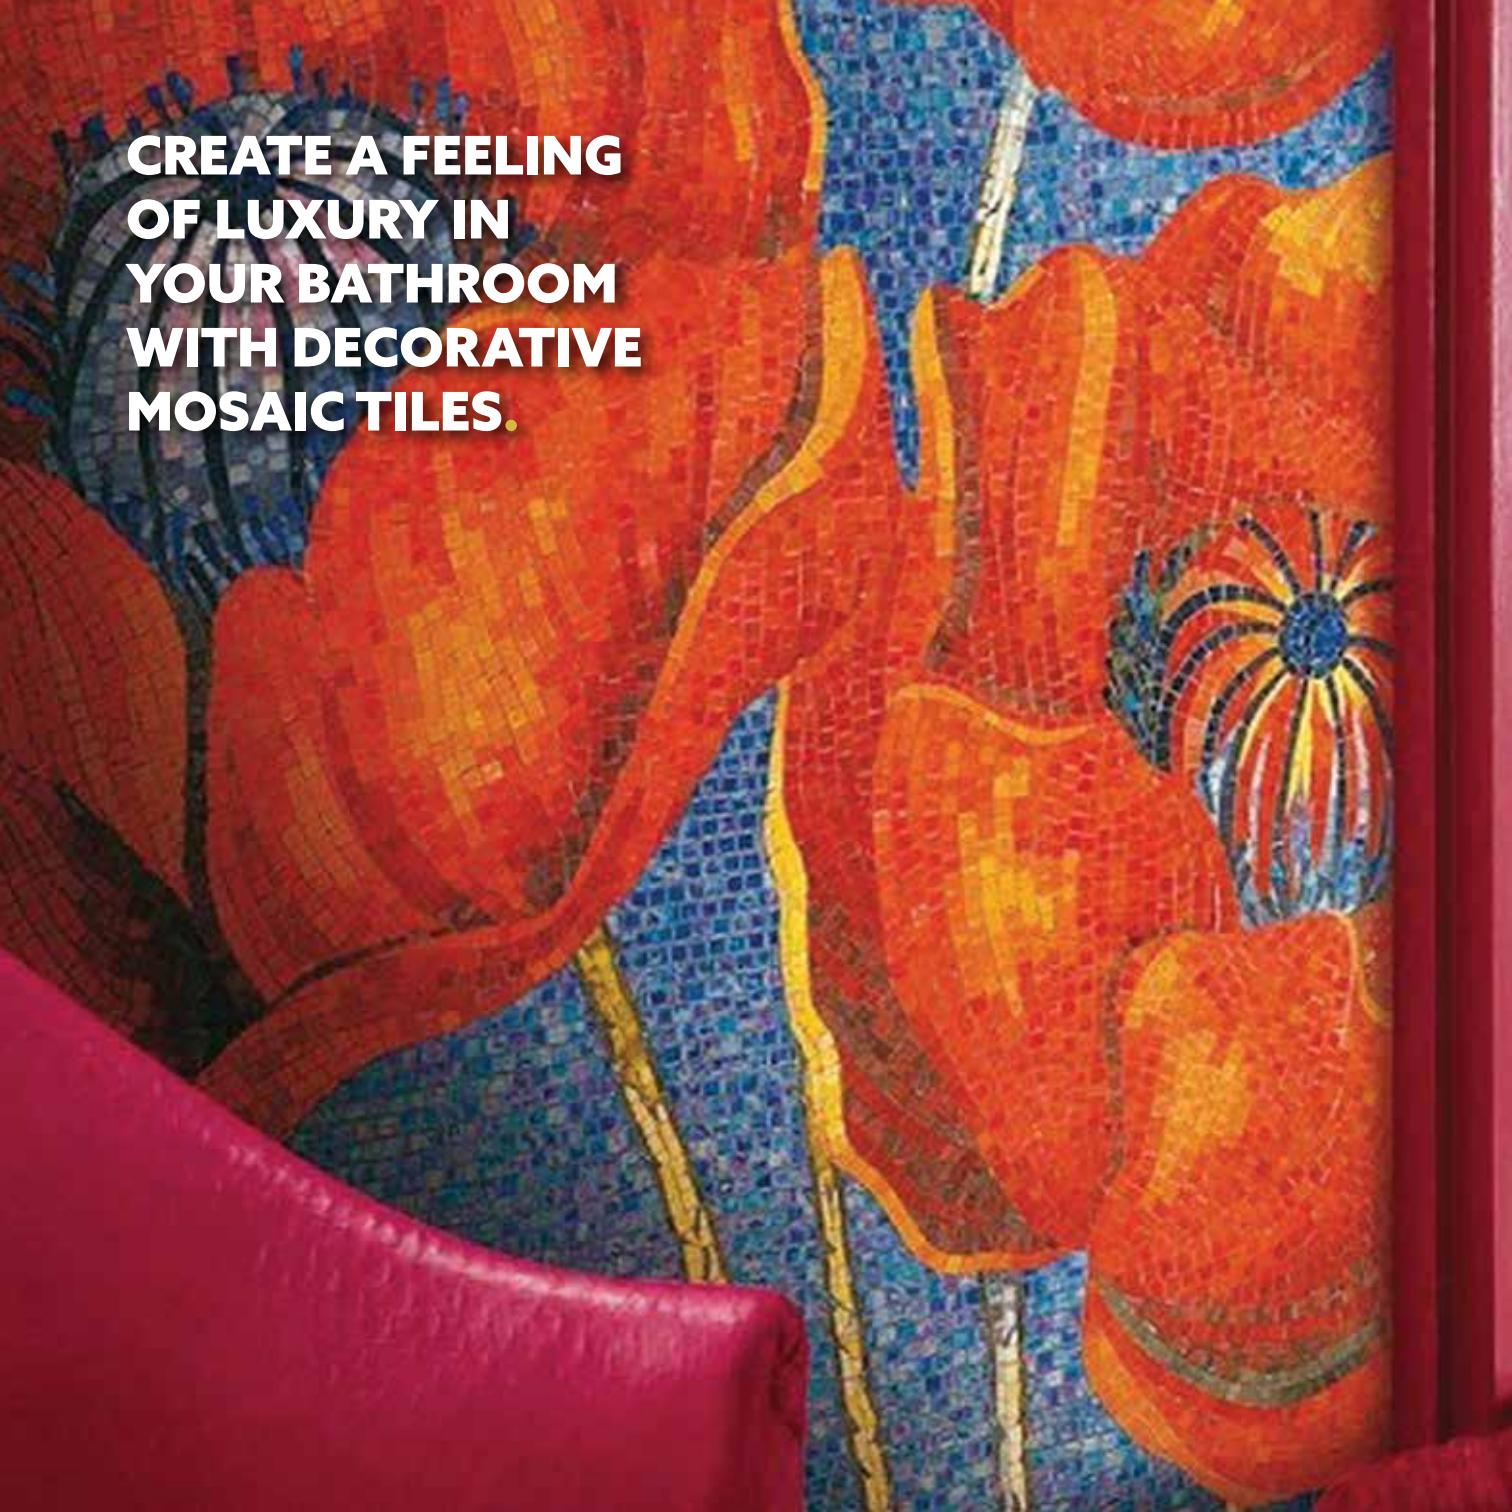

There's no question that tiles can really take a room to the next level. Whether it has a popping colour or an elegant design, it always makes a space feel fresh. Mixing your tiles is actually a great way to bring balance to your home.
